MA APCD Intake

- CHIA needs the ability to maintain an accurate de-identified member ID (MEID) over a 5 year period for longitudinal analyses.
- **To provide for future security implementations and to allow analytic interoperability across years we require all carriers to hold in escrow each December member eligibility file, prior to CHIA hashing/encryption, for a period of 5 years.**
- As software updates occur CHIA may require resubmission of these files to update security measures and to accurately assign an MEID.
- CHIA is currently looking at third party vendors to store these files prior to hashing/encryption.
