Cautionary Use Hospitals by Year	15
Hospital Charge & Discharge Totals by Quarter & by Fiscal Year	16

OVERVIEW

The Division of Health Care Finance and Policy collects case mix and charge data for all Outpatient Emergency Department patients discharged from Massachusetts acute care hospitals. The collection of data is mandated by **Regulation 114.1 CMR 17.00:** “Requirement for the Submission of Hospital Case Mix and Charge Data”, and the data specifications of Administrative Bulletin 02-06. The Emergency Department Database contains comprehensive patient-level information, including socio-demographics, clinical data, and charge data. The hospitals report data to the Division on a quarterly basis for the fiscal year beginning October 1st. The Division creates a yearly database, which is available to the public through the Division’s application process.

This Manual summarizes five years of outpatient hospital emergency department discharge data submissions for Fiscal Years 2000, 2001, 2002, 2003, and 2004. The five-year summary contains only basic information about the database. It is intended for experienced users of the DHCFP data, or users analyzing multiple years that might need only basic yearly database information. The Summary data consists of the following tables:

- a) Hospital Responses by Year, including Hospital Reported Discrepancies and Hospitals with No Verification Response Report
- b) Cautionary Use Hospitals by Fiscal Year;
- c) Hospital Charge and Discharge Totals by Quarter & Fiscal Year

New users, and/or those requiring more detailed information, should consult the yearly documentation manuals. The yearly manuals include information on database development, grouper methodology, data elements, error categories, the verification report process, and individual hospital-reported discrepancies in response to the data verification process. The yearly manuals also contain the discharge and revenue file tables, data code tables, and supplementary information, including alphabetical and numerical payer source lists.

Since the Hospital Emergency Department Data is not static, hospitals continue to submit and resubmit updated data throughout the year until the Division has closed out the fiscal data year. Yearly data is validated by hospitals. Validation occurs at the end of the fiscal data year during the Verification Process. Quarterly submissions are processed through electronic quality checks for compliance with regulatory requirements and can pass or fail based on those quality checks during quarterly data submissions. However, at the close of the Division’s fiscal data year, hospital contacts review and verify summary reports containing the final submission information for their hospital. The hospital contact reviews the information for accuracy and can resubmit corrected data or note any discrepancies found in the reports. All discrepancies and hospital comments are included in the detailed yearly documentation provided for users of the complete year-end Hospital Emergency Department Data. Only limited information concerning the discrepancies is included in the 5-year summary.

Copies of Regulation 114.1 CMR 17.00: Requirement for the Submission of Hospital Case Mix and Charge Data and Regulation 114.5 CMR 2.00: Disclosure of Hospital Case Mix and Charge Data may be obtained by logging on to the Division’s web site at <http://www.mass.gov/dhcfp/>.

HOSPITAL ADDRESSES, DPH ID, ORG ID & SERVICE SITE ID NUMBERS

This section contains a list of hospital names, addresses (for the physical location of the hospital), and unique identification numbers. The Organization ID and the DPH ID are unique numbers assigned to each hospital by the Division and the Department of Public Health, respectively, to allow for easy identification of the facility on the database. The facility site number is an assigned number used to distinguish multiple sites that fall under one DPH number.

Current Organization Name	Hospital Address	Hospital Org ID	Filing Org ID	DPH ID	Site ID

Hospital Organization ID

A unique facility number assigned by the Division to identify the main hospital organization.

Filing Org ID

The number under which the hospital files data.

DPH Number

The Massachusetts Department of Public Health’s four-digit identification number.

Facility Site Number

A hospital determined number used to distinguish multiple sites that fall under one Massachusetts Department of Public Health (MDPH) facility number. It is the ID number for the site where the service took place.

HCF CALCULATED FIELDS

Age Calculation – Age is calculated by subtracting the date of birth from the admission date. If dates are invalid, ‘999’ is placed in this field.

Newborn Age - Newborn age is calculated to the nearest week (the remainder is dropped) – subtracting the date of birth from the admission date and dividing by 7. Thus, newborns zero to six days old are considered to be zero weeks old. Discharges that are not newborns (>1 year old) have ‘99’ in this field.

Unique Health Information Number (UHIN) Visit Sequence Number - The sequence number is calculated by incrementing a counter for each UHIN’s set of admissions. Sequence Number is calculated by sorting the entire database by UHIN, admission date, then discharge date (both dates are sorted in ascending order). If the UHIN is valid, the sequence number is calculated by incrementing a counter from 1 to nnnn, where a sequence number of 1 indicates the first admission for the UHIN, and nnnn indicates the last admission for the UHIN. If a UHIN has 2 admissions on the same day, the discharge date is used as the secondary sort key. If the Unique Health Information Number (UHIN) is undefined (not reported, unknown or invalid), the sequence number is set to zero.

2. CAUTIONARY USE HOSPITALS BY YEAR

Cautionary use hospitals are those which the Division did not receive four quarters of acceptable discharge data, as specified by the 114.1 CMR 17.00 Regulation. The following table lists the cautionary use hospitals and reason(s) for failure, for each fiscal year.

FY2000		
Hospital	Cautionary Use Quarters & Reason	Acceptable Quarters
Anna Jaques	No retro data for FY2000.	
Athol Memorial	No retro data for FY2000.	
Beth Israel – Needham	No retro data for FY2000.	
Brigham & Women’s	Missing principal diagnosis for all retro data.	
Brockton Hospital	Submitted Q2 data only.	
Lowell General	Missing ED Physician # through FY2002.	
Merrimack Valley	Q4 data only.	
St. Anne’s	Patient demographic data only – no other data such as charges.	
Wing Memorial	No retro data for FY2000.	

FY2001		
Hospital	Cautionary Use Quarters & Reason	Acceptable Quarters
Beth Israel – Needham		
Brockton Hospital		
Heywood Hospital	Missing low #'s of principal diagnosis codes, payer source codes, and service line items for Q1, Q2 & Q3.	4
Wing Memorial		

FY2002		
Hospital	Cautionary Use Quarters & Reason	Acceptable Quarters
Brigham & Women’s	Missing E-Codes for all four quarters FY2002.	
Lowell General	Missing service line items through 8/02. Missing ED Physician # through FY2002. \$0.00 charges reported FY2002.	
Mass. Gen. Hospital	Missing E-Codes all quarters FY2002.	
Nantucket Cottage	Unable to provide Medical Record Number.	
Quincy Hospital	Missing E-Codes Q1 & Q2.	3, 4

FY2003		
NOTE: All hospitals with the exception of Nantucket Cottage Hospital submitted four quarters of acceptable data for FY2003. Nantucket Cottage failed all four quarters due to the fact that it was not able to provide Medical Record Number		

FY2004		
NOTE: All hospitals with the exception of Nantucket Cottage Hospital submitted four quarters of acceptable data for FY2004. Nantucket Cottage failed all four quarters due to the fact that it was not able to provide Medical Record Number		

Outpatient Emergency Department Database Documentation Manual – 5 Year Summary
